OBJECTIVE

Motivated and self-driven software developer with 9 years of hands-on experience in Python, JavaScript (React), HTML/CSS, and C/C++. Seeking an opportunity to contribute technical expertise and real-world project experience to a forward-thinking organization. Passionate about building efficient, scalable, and user-friendly solutions, with a strong commitment to continuous learning and problem-solving.

EXPERIENCE

Meo tech

2016 - ...

Programming and software developer
Freelance Developer

Self-Employed | Remote | 2016 – Present

Self-taught and highly motivated software developer with 9 years of hands-on experience in full-stack development using Python, JavaScript (React), HTML/CSS, and C/C++. Proven ability to design and build scalable web applications, embedded systems, and custom solutions for laboratories, schools, and private clients. Passionate about clean code, performance, and continuous learning.

EDUCATION

University of Abuja

Undergraduate

Back industrial Chemistry

PROJECTS

Laboratory project

Laboratory Management System

Developed a complete inventory and patient record system for a private medical laboratory using Python (Flask) and HTML/CSS/JS. Enabled secure data entry, test tracking, and report generation.

School portal

School Result Portal

Built a dynamic school portal with student registration, result computation, and teacher/admin login using React and Python backend. Enhanced performance and reduced manual grading.

Personal app

Personal Portfolio Website

Designed a lightweight and responsive portfolio site to showcase programming projects and skillset using HTML5, CSS3, and JavaScript.

REFERENCE

Available upon request.

STRENGTH

Strong analytical and problem-solving skills

Fast learner with ability to adapt to new technologies

Detail-oriented and quality-focused

Effective communicator and collaborator

EDUCATION

Self-Taught Developer (No formal certification)

9 years of hands-on coding, project building, and debugging.

Regularly use online platforms like freeCodeCamp, W3Schools, GitHub, YouTube tutorials, Stack Overflow, and technical documentation.
